

ACIS Web Developer Position

Title

Web Developer

About ACIS

ACIS Educational Tours are built on a passionate belief that travel changes lives. Since 1978, we've guided teachers and students on over a half million unforgettable tours. By traveling on an ACIS tour, students gain insight not just from seeing famous places, but also from observing life in and around them. Our commitment to changing lives one by one has made ACIS the best known, most respected name in educational travel.

Job Overview

This position will work within a small IT team doing web-enabling internal business processes and enhancing corporate websites. This position will be collaborating with Oracle developers, system administrators, marketing staff, and business team in the development and support of web applications. This includes designing and implementing new web applications; integrating sites with a custom CRM application. This position requires performing day-to-day administration of the organization's web portfolio.

Responsibilities

The responsibilities of this position are as follows but not limited to:

- Develop, QA test, debug, and document web applications built using Python, and Oracle SQL.
- Diagnose and troubleshoot problems with existing web applications and sites.
- Working with Oracle developers to enable web interaction with custom CRM database.
- Ensure security of all web sites and related applications.
- Perform periodic web site audits.
- May perform analytical work; identifying, recommending, and prioritizing new web features and applications under guidance of department manager.

Required Qualifications:

- Bachelor's degree in a related field and at least 2 - 3 years of relevant work experience.
- Experience building database driven corporate websites from wireframes and graphic designs.
- Experience analyzing and transforming high level business requirements into functional code.

- Understanding of Object-oriented programming.
- Understanding of application development methodologies, such as application prototyping, various agile methodologies, and project management processes.
- Good interpersonal skills.
- Willingness to collaborate with team members, placing the organization's project goals first.
- Ability to work independently when needed.
- Ability to effectively prioritize and execute tasks in a high-pressure and volatile project environment.
- Ability to adapt to and learn new technologies and programming languages quickly.
- Highly self motivated and directed with attention to detail.

If you are experienced, enjoy a unique and fun work environment and want a place with a relaxed dress code then send us your resume. We offer great benefits, flexible work schedules, pay 80% of your health/dental, 4 weeks vacation for new hires, 401K with profit sharing, travel discounts and reimbursements, pay 100% of your life and disability insurance, tuition reimbursement and much more!

Please send a cover letter and resume to: ACIS, Attn: HR, 343 Congress Street, Suite 3100, Boston, MA 02210 or email hr@acis.com . No phone calls please.
